# What is the Children's University?

---

- The focus is on rewarding participation in extra curricula learning , raising aspirations and encouraging engagement with learning.
- The Children's University (CU) Trust is a charitable trust that connects and provides children from 5 to 14 years old and up to 25 for those children with SEND, with exciting and innovative learning activities and experiences outside normal school hours.

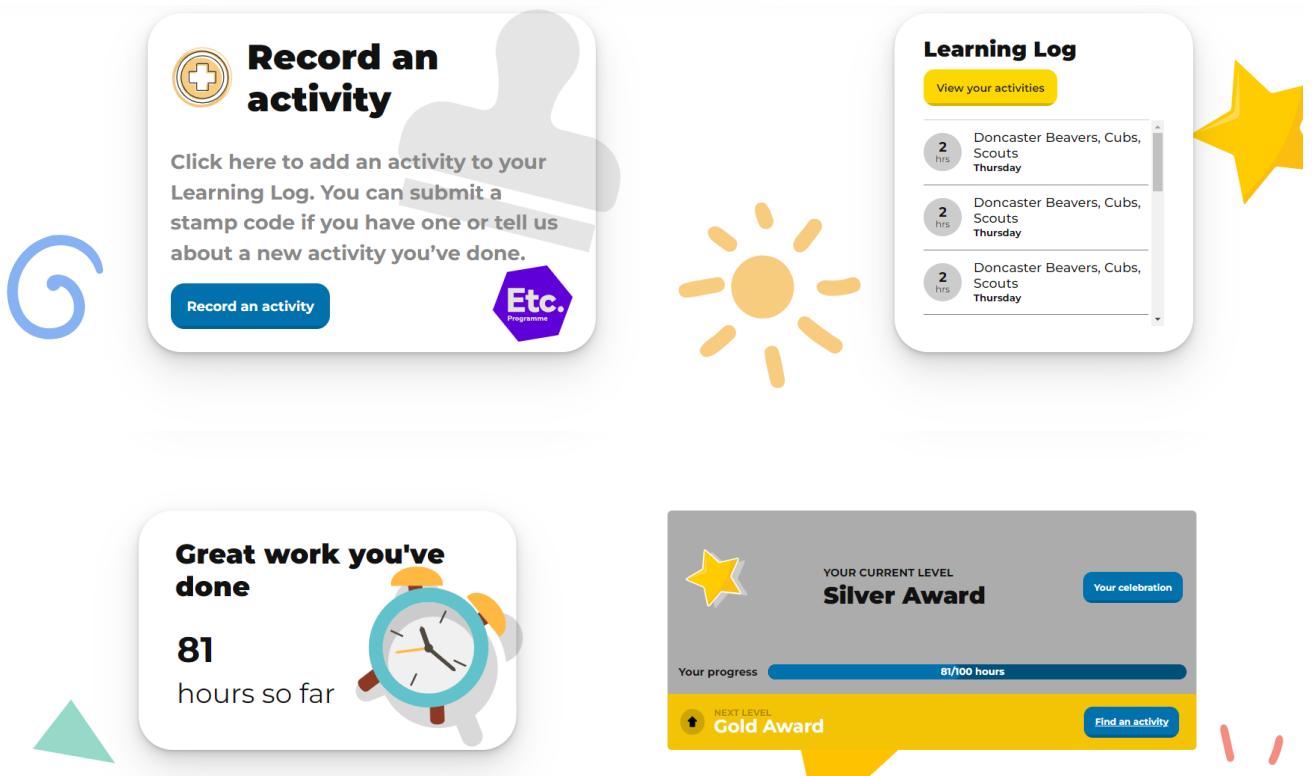

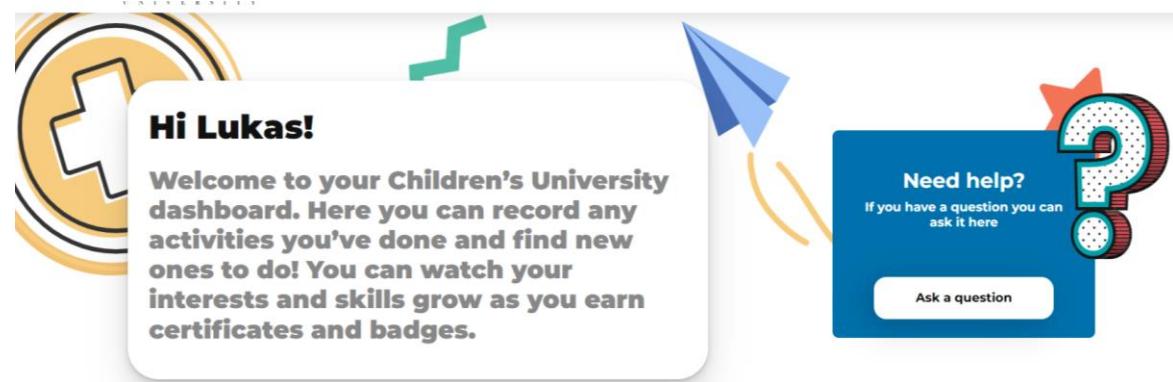

# How does it work?

- Children have an online Passport to Learning and collect codes for each hour of participation in activities at our validated Learning Destinations.
- CU members will have access to our digital platform - CU Online. This will allow children to update Doncaster Children's University with their total Learning Hours. It also provides children with an insight into the skills and experiences they have taken part

# How does it work?

- Children can collect hours at any activities or clubs they do at school, as well as collecting hours for clubs they go to outside of school, and lots of other fun places too!
- Most CU Learning Destinations display our Learning Destination logo or stamp code poster.
